

1 in 10 children experience sexual abuse before age 18.

Over 90% of children know their abuser.

*We can change that.*

Stewards of Children® is a prevention training that teaches adults how to prevent, recognize, and react responsibly to child sexual abuse. The program is designed for organizations that serve youth and for individuals concerned about the safety of children. **It is the only nationally distributed, evidence-informed program proven to increase knowledge, improve attitudes, and change child protective behaviors.**
